DISTRICT'S VISION

Attaining holistic sustainable development and poverty free communities by 2030

DISTRICT'S MISSION STATEMENT

To empower communities in sustainable use of existing resources through efficient and effective service delivery

EDUCATION DEPARTMENT MANDATE

Education Department is mandated toimprove the quality of education and ensure retention of all categories of enrolled children in schools up to the end of education learning cycle as prescribed by the Education Act.

Sector: Vision

To improve academic performance through quality education to all school going age children enrolled in schools

Sector: Mission

To provide quality education to all school going children and equip them with skills, knowledge, attitudes and values with which to make use of the environment, development of self and the nation.

Foreword

The commitment by the Government of the Republic of Uganda towards improving education service delivery is eminent. The efforts in this pursuit are also envisaged by strategic adherence to the Global Development Agenda that puts equitable access to education at the center of development. Kiruhura District Local Government has prioritized evidence based planning in order to strengthen and guide the implementation of a series of activities and investment priorities geared towards improvement of service delivery. Consequently this report that details the status of education service delivery in the District is a clear manifestation of the aforementioned commitment.

The Education department has commit itself to produce status reports on annual basis and periodical simplified reports (per term) to ensure readily available data for public use, accountability and proper planning.

It is to our strong conviction that if this commitment is upheld and given due support, there is a very positive likelihood of achieving the desired results that will propel and see Kiruhura District build her full potential in providing educational services to her rapidly growing population.

I therefore call upon all the stakeholders and well-wishers of our dear District to use this report to understand the status of education service delivery in Kiruhura District.

Yours in service,

………………………………

Turyamureeba Gwenny

Ag. DISTRICT EDUCATION OFFICER

Acknowledgement

The importance of statistics in informing planning and monitoring of government programmes cannot be over emphasised. We need to know where we are, determine where we want to reach and also know whether we have reached there. The monitoring of socio-economic progress is not possible without measuring how we progress and establishing whether human, financial and other resources are being used efficiently. However, these statistics have in many occasions been national in outlook and less district specific. The development of a district-based Statistics shall go a long way to solve this gap and provide district tailored statistics and will reflect the peculiar nature of the district by looking at specific statistics which would not be possible to provide at a higher level.

Data and statistics are required for designing, planning, implementing, monitoring and evaluating development programmes. For instance, statistics on school enrolment, completion rates and dropout rates e.t.c are vital in the monitoring of Universal Primary Education (UPE) and Universal Secondary Education (USE) programmes. Statistics are also needed for establishing grant aiding to community schools, staff levels and other investments in the education programmes. The collection of data and use of statistics such as performance indicators is critical for both successful management and operation of all the sectors in Local Governments.

For data to inform planning and service delivery it should be effectively disseminated to the various users and stakeholders. The initiative to compile this Education statistical report is therefore an effort to support the Planning function of the Local Governments and other users interested in education service delivery. This document will go a long way in guiding District Policy makers, Planners, Researchers and other stakeholders to identify the indicators that are relevant for planning, monitoring and evaluation of Government programmes in their jurisdiction.

It is my sincere hope that the document will provide all interested users with adequate information and where more information is required, appropriate stakeholders should be contacted for details.

Lastly, I wish to thank the Education Department, Planning Unit and all my Technical staff especially Mr. Johnson Atwiine (Assistant Statistical Officer) who compiled this Information and consolidated it into this usable document.

…………………………………
Kiberu Charles Nsubuga
CHIEF ADMINISTRATIVE OFFICER

TABLE OF CONTENTS:

SUMMARY INDICATORS 2017

Primary (UPE)

	INDICATOR	STATISTICS
1	Total Enrolment primary	51667
2	Enrolment Primary (Males)	25,596
3	Enrolment Primary (Females)	26,071
4	Enrolment Sex ratio	98 Males per 100 females
5	Total Teachers (UPE)	1116
6	Classroom Pupil Ratio	1:48
7	Pupil Teacher Ratio	1:49
8	Stance Pupil Ratio	1:48
9	Pupil Desk Ratio	1:4 (61,087) pupils don't have where to sit

Secondary (USE)

	INDICATOR	STATISTICS
1	Total Enrolment Secondary	4,992
2	Enrolment Secondary (Males)	2,848
3	Enrolment Secondary (Females)	2,144
4	Enrolment Sex ratio	133
5	Total Teachers (USE)	275
6	Classroom Student Ratio	1: 33
7	Student Teacher Ratio	1:18
8	Stance Pupil Ratio	1:23
9	Pupil Desk Ratio	1:2

CHAPTER (1): DISTRICT BACKGROUND INFORMATION

1.1 History:

Kiruhura District Local Government was curved out of greater Mbarara in the year 2005. The District started operating in the Financial Year 2005/06.

1.2 Location:

Kiruhura District is located in the south western region. It is bordered by Kyegegwa District to the North, Sembabule to the North-east, Kamwenge District in the North-west, Lyantonde District to the East, Rakai to the South-east, Isingiro to the South, Mbarara District to the South-west and Ibanda to the North-east.

1.3 Administrative Structure:

	ADMINISTRATIVE UNITS	NUMBER
1	Number of Counties	003
2	Number of Sub-counties	015
3	Number of Town Councils	003
4	Number of Parishes and Wards	091
5	Number of Villages and Cells	562

Kiruhura District is composed of **3** counties, **18** Lower Local Governments (LLGS) whereby **15** are Sub-counties and **3** are Town Councils. There are **91** Parishes and **562** Villages.

1.4 Population and Demographic characteristics

	INDICATOR	PARAMETER
1	Total Population	328,077
2	Male Population	166,214
3	Female Population	161,863
4	Total Households	67,303
5	Population Density	72 people per sq/km
6	Population Annual Growth Rate	3.64%
7	Projected Population (October 2017)	366,587

Kiruhura District according to the National Population and Housing Census (NPHC) 2014 had a total population of **328,077** people.

The **Males** were **166,214** and **females** **161,863** implying a sex ratio of **103**. This shows that in Kiruhura District the Male population is bigger than the Female population (103 males for every 100 females)

The annual population growth rate of Kiruhura District stands at **3.64%.** This is far above **3.0%** which is Uganda's annual Population growth rate.

The **projected** population for Kiruhura District by end of **October 2017** was about **366,587** people.

CHAPTER 2: DISTRIBUTION OF SCHOOLS IN KIRUHURA

Kiruhura has a total of **137** Universal Primary Education (UPE) Schools and **11** Government aided Secondary Schools. The District is partnering with **2** Private secondary schools to implement Universal Secondary Education (USE). The Schools are: Kinoni Community High School in Kinoni Sub-county and Premier High school in Kanoni Sub-county. In the year 2017, 1 Secondary school (Engari Secondary school started operating as a government Secondary School offering USE.

Table 1: Distribution of Schools by LLGs.

Note: Kiruhura District by end of FY 2016/17 did not have any Public Vocational Institution nor a tertiary institution this is a very critical issue and a set-back to education service delivery in the District. It is also a gap especially in view that according to the NRM manifesto each constituency should have at least 1vocational training institution.

CHAPTER: 3 – SCHOOL BACKGROUND DETAILS 2017

The background characteristics of UPE schools are summarized by highest class as of 2017, Year founded, founding body. The details are appended.

Table 6: UPE SCHOOLS AND THEIR HIGHEST CLASS

Highest Class	No.	%
P3	2	1.5
P4	3	2.2
P5	5	3.7
P6	1	0.7
P7	126	91.9
TOTAL	**137**	**100%**

HIGHLIGHTS
- ✓ **126** (92%)-UPE schools have P.7 as the highest class
- ✓ **11** (8%)- UPE schools have their highest class below P.7

There is need to upgrade these schools to be able to offer UPE services up to P.7

Table 7: UPE SCHOOLS BY FOUNDING BODY

FOUNDING BODY	No.	%
Church Of Uganda	94	68.6
Catholic Church	29	21.2
Community	10	7.3
Government	04	2.9
TOTAL	**137**	**100%**

HIGHLIGHTS
- ✓ **94** (68.6%)-UPE schools were founded by C.O.U
- ✓ **29** (21.2%)-UPE schools were founded by Catholic Church
- ✓ **10** (7.3%)-UPE schools were founded by the Community while
- ✓ **10** (2.9%)-UPE schools were started by Government directly

Table 8: UPE SCHOOLS BY YEAR WHEN FOUNDED/ESTABLISHED

DURATION	No.	%
Before Independence	17	13
Between 1962-1985	77	58
Between 1986-2017	39	29
TOTAL	**137**	**100%**

HIGHLIGHTS
- ✓ Majority of the current UPE schools (58%) were established between the year 1962 and 1985.
- ✓ 39 Primary Schools were established in the period 1986 to 2017.

CHAPTER: 4 – ENROLMENT IN UPE & USE SCHOOLS

This section presents enrolment information for Government Schools in Kiruhura District.

ENROLMENT INTO UNIVERSAL PRIMARY EDUCATION (UPE)

Table 9: Total Enrolment into Primary schools (UPE)

PRIMARY (UPE)	Males	Females	Total	Sex Ratio
Year 2017	25,596	26,071	51,667	98
Year 2016	24,472	25,018	49,490	98
Year 2015	24,225	24,691	48,916	98

The enrolment into UPE schools has been growing. The figures for the last 3 years show that UPE enrolment grew by **2,751** between 2015 and 2017. The enrolment sex ratio has remained **98** males for every 100 females for the past three years implying that there are more female pupils enrolled in UPE schools in Kiruhura District. The trend is summarized in the figure below:

TRENDS OF UPE ENROLMENT BY GENDER

	2015'	2016'	2017'
Males	24,225	24,472	25,596
Females	24,691	25,018	26,071

Figure 1: UPE enrolment Trend for the last 3 years in Kiruhura District.
Source: *EMIS*

The trend shows that Male enrolment increased by 1,371 pupils and for females by 1,380 in the three year period. Substantial increase in enrolment was registered between 2016 and 2017 after closure of sub-standard and illegally operating primary schools.

ENROLMENT INTO UNIVERSAL SECONDARY EDUCATION (USE)

Table 10: Total Enrolment into Secondary schools (USE)

SECONDARY (USE)	Males	Females	Total	Sex ratio
Year 2017	2,848	2,144	4,992	133
Year 2016	2,870	2,104	4,974	136
Year 2015	2,267	1,463	3,273	155

Source: EMIS

The enrolment into USE schools has been growing. The figures for the last 3 years show that USE enrolment grew by **1,719** between 2015 and 2017. The enrolment sex ratio has since improved

from **155** to **133** males for every 100 females for the past three years implying that there are more male students enrolled in USE schools in Kiruhura District. This is still a very big gap. The trend is summarized in the figure below:

USE ENROLMENT TRENDS BY GENDER

|	Year 2015	Year 2016	Year 2017
■ Males	2,267	2,870	2,848
■ Females	1,463	2,104	2,144
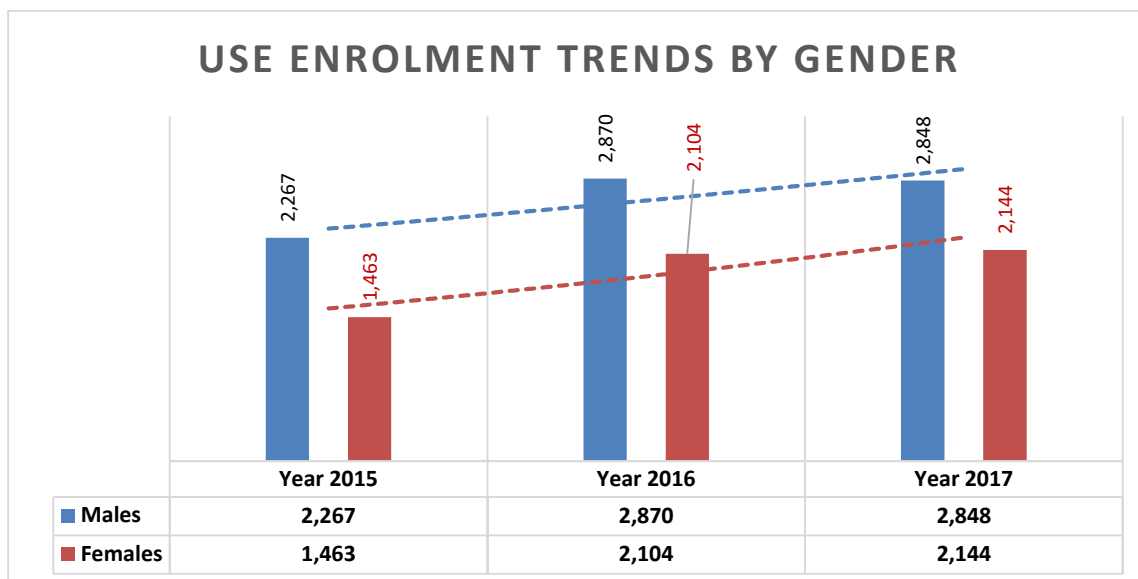

Figure 2: USE enrollment Trend for the last 3 years in Kiruhura District
Source: *EMIS 2017*

The trend shows that Male enrolment increased by **581** students and for females by **681** in the three year period between 2015 and 2017.

KEY FACTS ABOUT PRIMARY SCHOOL ATTENDANCE IN KIRUHURA (Census data)

	INDICATOR	Number	%
1	Total School going age Children Population(6-12 years)	64,492	**19.8%**
2	Total Male Children aged (6-12 years)	32,972	51.1%
3	Total Female Children aged (6-12 years)	31,520	48.9%
4	Children aged (6-12 years) attending Primary School	51,244	79.5%
5	Male Children aged (6-12 years) attending Primary school	25,883	78.5%
6	Female Children aged (6-12 years) attending Primary School	25,361	80.5%
7	Children aged (6-12 years) **Not attending** Primary School	13,248	20.5%
8	Male Children aged (6-12 years) **Not attending** Primary school	7,089	21.5%
9	Female Children aged (6-12 years) **Not attending** Primary School	6,159	19.5%

Source: *National Population & Housing Census (2014)*

Census 2014 showed that 2 in every 10 children who are supposed to be in Primary school (6-12 years) were actually not in School. The total population aged (6-12years) was **64,492** and constituted **19.8%** of the District total population. The projected population aged 6-12) is estimated to be **71,412** children.

KEY FACTS ABOUT SECONDARY SCHOOL ATTENDANCE IN KIRUHURA (Census data)

	INDICATOR	Number	%
1	Total School going age Children Population(13-18 years)	46,652	**14.2%**
2	Total Male Children aged (13-18 years)	23,824	51.1%
3	Total Female Children aged (13-18 years)	22,828	48.9%
4	Children aged (13-18 years) attending Secondary School	12,021	25.8%
5	Males aged (13-18 years) attending Secondary school	5,980	25.1%
6	Females aged (13-18 years) attending Secondary School	6,041	26.5%
7	Children aged (13-18 years) **Not attending** Secondary School	34,631	74.2%
8	Males aged (13-18 years) **Not attending** Secondary school	17,844	74.9%
9	Females aged (13-18 years) **Not attending** Secondary School	16,787	73.5%

Source: *National Population & Housing Census (2014)*

Census 2014 showed that **7** in every **10** children who are supposed to be in Secondary school (13-18 years) were actually not in School. The total population aged (13-18years) was **46,652** and constituted **14.2%** of the District total population. From the results in table above there are no marked differentials in school attendance. The projected Population aged (13-18) is estimated to be **51,656** as at end of August 2017.

ACCESS TO PRIMARY SCHOOLS BY CHILDREN IN KIRUHURA (Census data)

	INDICATOR	Number	%
1	Households that are 5 kms or more to the nearest Primary School (whether public or Private)	10,460	15.6%
2	Households that are less than 5 kms to the nearest Primary School (whether public or Private)	56,843	84.4%
3	Households that are 5 kms or more to the nearest Public Primary School.	15,808	23.5%
4	Households that are less than 5 kms or more to the nearest Public Primary School.	51495	76.5%
5	Households that are 5 kms or more to the nearest Secondary School (whether public or Private)	33,765	50.2
6	Households that are less than 5 kms to the nearest Secondary School (whether public or Private)	33,538	49.8
7	Households that are 5 kms or more to the nearest Public Secondary School.	51,255	76.2
8	Households that are less than 5 kms or more to the nearest Public Secondary School.	16,048	23.7

Source: *NPHC (2014)*

In Kiruhura District **15** in every **20** households are within a distance of less than five kilometers to the nearest UPE School. Considering both Private and UPE schools, 17 households access a primary school facility within **5** kms. Only **2** in every **10** households access a pblic secondary school within a distance of **5** kms. **One** in every **two** households access any Secondary school within a distance of at least 5 kms.

CHAPTER: 5 – TRENDS IN PLE PERFORMANCE UP TO 2016

The table below is a summary of PLE performance since the District started in 2005.

(10 years)

Table 11 : PLE Performance Trends
